| KODAK Production Matte Paper, 170gsm provides users the ability to print high-quality, low-cost photos on a smooth, bright white surface. Production Matte Paper covers the application spectrum, and is perfect for architectural drawings or full-color photos. It provides high ink-load retention needed for saturated colors, quality images, and brilliant colors. This paper can be thermally laminated, making it ideal for producing high-impact graphics. It is often used by shops who want a low-cost way to produce high volumes of POP displays, posters, or color accurate renderings. It is universally compatible with thermal and piezo pigmented and dye inks, is instant-dry and is an FSC®-certified paper. | | | | | | | |

| Kodak's improved replacement for KODAK Instant Dry Photographic Satin Paper is a genuine resin-coated paper that provides excellent image quality and instant dry times with Epson dye and pigment inks, HP pigmented inks, and dye-based Encad and HP printer/ink combinations. Turn out posters and signage faster than you can say "tradeshow graphics" with Kodak's Rapid-Dry wide-format media. Outstanding color density and wide color gamut give you breathtaking image quality. Innovative microporous coatings make for fast dry times, which means less chance of smearing and waste, and the ability to apply laminates instantly. | | | | | | | |

**KODAK SELF ADHESIVE** - From event signage to retail displays and wall murals, KODAK Self-adhesive products produce brilliant color and are durable, water-resistant, and stick to most non-porous surfaces with different levels of removability.

KODAK Rapid-Dry Self-Adhesive Glossy Poly Poster is a 6-mil film designed for aqueous-based printers using both dye and pigmented inks. It is one of the few glossy PSA (pressure-sensitive adhesive) films ideal for long-term, high-impact indoor signage that can also be used for short-term outdoor signage. It has a specially-designed adhesive that makes it easy to install and is cleanly removable for up to 90 days. After 90 days the adhesive will become permanent.

KODAK Water-Resistant Scrim Banner raises the performance bar by providing a scratch and water-resistant surface with a white point never before seen on a banner substrate. KODAK Water-Resistant Scrim Banner is a 16-mil, scrim-reinforced vinyl designed to create spectacular, high impact, cost-effective graphics that will stand up to the test of time. KODAK Water-Resistant Scrim Banner not only extends the life of the graphic, it also provides easier handling, creating efficiency in production so that users can compete for high-volume banner jobs with the one-two punch of economy and quality. It is compatible with both thermal and piezo printing technologies.
