

Coated Bonds

- * 24 lb.
- * 36 lb.
- * 41 lb.

Matte coated, high quality presentation paper. Heavy basis weight will accept more ink than lighter bonds. Water resistant with either Dye or Pigmented inks.

Opacity	98%
Brightness	98
Indoor Life	1+ year with pigmented ink

Specifications

Ink coverage up to 200%

For optimum results, use the following printer settings:

- HP - "Heavy Coated Paper"
- Encad NovaJet - "enhanced Multi-Pass"

* Over saturation may cause paper cockle

Inks: Dye & Pigmented

 - 5000 Series

Printer & Ink Compatibility

LAMINATION

Can be overlaminated with most cold and low-temp hot laminates. Better adhesion is achieved using cold laminate. Overlap the image with minimum .25 inch safe edge to prevent moisture absorption and premature paper splitting. Lamination can be performed immediately after printing as long as the inks are dry to the touch and do not smear.

MOUNTING

Recommended mounting material is cold, pressure-sensitive adhesive to provide the best bond.

Lamination & Mounting
